Renewable Energy Integration into curricula at Lebanese University

- CNAM
  - Mechanical Engineer Department
    - Engineering Diploma
      - specialised courses
        - REPO R&D HVAC
          - Heat transfer 1
            - conduction convection radiation insulation

- LU
  - Faculty of Engineering
    - Renewable energy courses
      - Computational physics
        - advanced heat transfer
          - advanced fluid flow
            - Photovoltaic

- Faculty of Sciences
  - Major courses
    - Common Courses for all masters
      - courses for Energetic Master
        - Energetic courses
          - increasing number of students

Help the students to integrate
